## PROJECTS (ALL AVAILABLE IN GITHUB)

---

### Alumni Portal

<https://alumnism.com/>

- This web is used for connecting alumni of srm college.
- The technology are used in this project are Node,react,express,mongodb,axios,multer.
- I have worked as backend developer.

### Admission Portal

<https://admissionfront.herokuapp.com/>

- I made prototype of admission portal.
- In this a user has to register and then login to account after that he can start filling his/her application then that application will be sent to admin with all details and document attached by user.
- The technology used are React, Node mailer, Axios, Express.js, MongoDB

### Stonks

<https://techtatvastonks.herokuapp.com/>

- This project was used in Event conducted by Aavesh IITU .
- The technology are used in this project are Node,react,express,mongodb,axios.
- I have worked as backend developer.

## WORK EXPERIENCE

---

### ITS FOR YOU

*Feb 2022 - Present MERN Stack Developer*

- My major role is to make Api and bug fixes in current app.

### TechSnap

*July 2021 - Aug 2021 Front-end Developer*

- As a Front end Developer I developed some pages like Contact Us, UX design, carousel. These page are good looking and responsive as well.
- I have fixed their pages which were not responsive. I have created responsive footer for their website.
- During my internship I have learned how to manage time with the given work.

## ACHIEVEMENTS

---

**CodeChef:** Max Rating -1676 (3 Star)  
**Codeforces:** Max Rating -842 (newbie)  
**GoogleKickStart:** Global Rank -3312

## INTEREST

---

- Competitive Coding
- Web Development
